Base Paint

UNIVERSAL STAINER

Asian Paints Universal Stainer is a high strength colour concentrate used to tint base paint.

Directions for use

- To get the desired shade, add a small quantity of stainer at a time to Base/White.
- The stainer should be added before thinning the Base/White paint.
- Stir vigorously to mix the stainer completely in the paint.
- Because of its excellent tinting strength, it is advisable not to use more than 5% of Universal Stainer to a given volume of paint.
- For uniform staining results, it is best to use the Bases available in the Asian Paints range.
- However, while using the Base/White of other manufacturers, it is advisable to have a test mix of the stainer in a small quantity to ensure compatibility.

- बेस/व्हाइट पतला करने से पहले स्टेनर को मिलाएं।
- अब स्टेनर को पेन्ट में मिलाने के लिए उसे अच्छी तरह घोलें।
